

Acme Corporation — RoomWise Product Pricing Sheet (FY2026)

The following table lists Acme's official RoomWise pricing for FY2026, effective January 1, 2026. All prices are billed monthly in USD and exclude applicable sales tax.

Plan	Monthly Price	Annual Price (per month)	Listings Included	Overage Fee per Listing
Starter	\$29	\$24	10	\$4.00
Pro	\$79	\$65	50	\$2.50
Agency	\$199	\$165	Unlimited	N/A

Annual billing requires a 12-month upfront commitment and reduces the effective monthly price by approximately 17% compared to month-to-month billing. Customers on the Starter or Pro plan who exceed their included listing count in a given month are billed the overage fee per additional listing at the end of that billing cycle; the Agency plan has no overage fee because listings are unlimited.

A 20% discount is available for verified non-profit organizations and accredited educational institutions on any plan, applied automatically after Acme's sales team verifies eligibility, typically within 2 business days of a request. Discounts cannot be combined with the annual billing discount; a customer must choose one or the other.

Price changes are communicated to existing customers at least 30 days before taking effect for that customer's account, and existing customers on annual billing keep their locked-in price until their current annual term ends.
